***** THE FIRST BLUE MOON IN OZ since 1961 *****

Footnote ~ a 'Blue Moon' has come to mean in modern times, 'two full moons in one month,' hence
the saying, '*once in a blue moon*'.

In the days of antiquity it was used to refer to a full moon that had taken on
'the hue of blue', due to exceptional atmospheric conditions.

*****Flicka's Widdle Riddle***
"Who do a Blue Moon, Uncle
Walt, 1961, Bart, uummmm...
Big Bird, Mr Groening,
Garfield, twisted hair, a giant
tooth and ...oh, ME, all have in
common?"**

...its my very bestest friend in the whole wide (umm...) galaxy...

In 1994 Mr. Groening, who used to draw Bart and Lisa and Maggie, said...

"...Jane's work is among the best coming in from around the world..."

Hi, I'm Jane Thornton, I'm Twisted Hair Productions and I'm an artist.
I've drawn and acted characters as long as I could hold a pencil...or an audience!

I was born on December 5th (*Walt Disney's birthday*), 1961
(*The year of the last two Australasian Blue Moons*).

The story that I'm about to tell, conceived and written last year,
begins on the eve of a Blue Moon.

It is the beginning of an adventure that belongs to a grander vision.

One that aims to put the fun of artful storytelling and self-empowerment
back into the hands (*and mouths*) of Children and Grown-ups.

The medium...the new and exciting art of 3D Digital Animation. (*A Bugs Life*).

I have the story, the concept, the characters, the passion and the vision...
Now; who will join me in an adventure that only happens once in a blue moon...?
